some demand with but few offering for

sale. Dealers are holding at 80@82c. There is now a strong investment demand for government securities, which runs largely for registered bonds, since the late robberies, as being more safe for permanent holders. To supply this demand the dealers are forced to send coupon bonds to Washington for conversion, and transactions show an enormous business in this direction, in amounts ranging from \$50 ppward. The largest portion, however, is in uneven sums under \$5,000, indicating that people of moderate means are putting their surplus means into them. In this connection, it is stated also that the number of savings bank depositors-mostly per-

The Circinnati Gazette says under date "There is considerable excitement in pork-packing circles in reference to the ex- Whisky, tent of the hog crop. In some towns in the central portion of Iadiana and Kentucky, the reports come that nearly all the hogs have been marketed, the larger portion of them being shipped Eastward, and

some of our packers act as though they thought the season was about to close without their having secured the usual amount, We remember that last year, about this season, there was a similar excitement, and yet the number of hogs packed by the close, was larger than for several years before. The weather has been unusually good for feeding, and corn being plenty and mild, pleasant weather, will cause the receipts to increase largely. Mr. H. Mil-

ward, in his Chicago circular of Saturday, says, that the usual reports of short crops are this year withheld and large receipts are looked for in January. The packing LEATHER.
